

The Commercial
VEHICLE
MARCH 23 - 25
2004 Show
Incorporating IRTE & Tipcon

For the first time ever, Walker Scott Ltd had its own stand at the commercial vehicle show held at the National Exhibition Centre in Birmingham.

The stand which was attended by Harry, Rosie and Jay over the three days seemed to attract a good deal of attention and some good quality enquiries were received.

We also had some products displayed on other stands at the show. Most notably was the Handistep range fitted to vehicles on stands run by Volkswagen, Eberspacher, Vauxhall and Modul-System International Ltd. In addition on the Ford stand was a tipper truck which had a complete fitted version of our tipper control kits.
